Teaching Experience

Pacific American School *Design & Technology Teacher*

Zhubei City, Taiwan
August 2019 - Present

Design and Technology teacher for high school. Courses taught include Web Development, Design Thinking in Technology 8, Digital Photography & Film, Adobe & Branding, UI/UX Design, and Algebra 1. Developed the curriculum for a new class introduced this year, and updated curriculum maps for existing courses. Backwards design and learning outcomes approach to planning.

Kang Chiao Intl School *STEM/STEAM Teacher*

New Taipei City, Taiwan
August 2018 - August 2019

STEM/STEAM Subject teacher for grade 3-6 students at an international school in Taipei, Taiwan. Emphasis on the design cycle, inquiry, and problem based learning. Worked alongside the head teacher to design the curriculum and develop term projects. Prepared and organized lessons across 4 grade levels, for over 200 students.

BC SD38 Practicum *Classroom Teacher*

Vancouver, BC, Canada
September 2017 - June 2018

Grade 6/7 public school teacher at William Bridge Elementary school in Richmond, BC, as part of the UBC B.Ed. program. Classroom teacher for two practicums, mentored by a sponsor teacher. Responsible for class management, lesson preparation, unit planning, and assessment. Extra curriculars include ball hockey club on Fridays and Guitar club on Wednesdays.

Sylvan Learning Centers *Instructor*

Vancouver, BC, Canada
March 2017 - March 2018

English reading/writing, and math Instructor for children from elementary to high school. Also responsible for summer robotics and coding STEM camps, where students learned to code using Tynker, learned simple robotics, and developed a basic understanding of engineering concepts with Lego.

Eye Level Learning *Instructor*

Vancouver, BC, Canada
June 2017 - September 2017

Robotics and Coding instructor for an after school learning center. Students used engineering tool kits to construct bridges, windmills, clocks, and other miniature construction projects. Emphasis was on understanding mechanics, gear motion, weight transfer, and structural integrity. Coding was done through the MIT's Scratch program and students developed their own games and movies.

Chungdahm Institute
Classroom Teacher

Seoul, South Korea
August 2015 - August 2016

Instructor at an English Immersion school for primary to middle school aged students. Focus on grammar, speaking, listening, and writing. Developed assessments, and focused on differentiating lesson plans to support ELL/EAL students.

Other Work Experience

Freelance
Graphic / Web Designer

Vancouver, BC, Canada
February 2012 - Present

Freelance graphic designer and web developer. Projects included web development and design, logo design, brochure & pamphlet design, photography, advertisement graphics, presentation slides, and other graphic related work. Web development work focused on front-end programming languages.

Kdan Mobile
Graphic / Web Designer

Tainan, Taiwan
July 2014 - January 2015

Internship for a mobile app company. Hired as a web designer for launching a new website. Also worked with logos & re-branding. Focus for the website was on UI (User Interface) and UX (User Experience) design, making it flow logically and smoothly. Additional tasks included creating graphics and editing photos for promotional material and advertisements.

Math Easy Solutions
Graphic Designer

Vancouver, BC, Canada
May 2014 - July 2015

Lead graphic designer for a startup web based company focusing on online tools. Work included web design, creating icons, graphic images, and logos. Main objective was to develop an appealing visual concept and visual identity that resonated with users while coinciding with the founder's vision.

AIESEC SFU
Graphics / Marketing

Vancouver, BC, Canada
September 2012 - June 2013

A non-profit student run business focusing on providing youth internships to undergraduates and fresh graduates. Responsible for networking internationally and communicating with other universities around the world. Part of the communications portfolio, in charge of creating marketing material for prospective internships and interns. Also worked on graphics for the AIESEC SFU annual report.

Education

University of Windsor
IB MYP Educator Certificate

Ongoing International Baccalaureate MYP Educator Certificate. Focus on MYP Design. Projected completion by August 2020.

June 2019 - Present

University of British Columbia
Bachelor of Education

Area of focus on English language learners (ELL/EAL) through cross-curricular inquiry. Teaching exchange in Monterrey, Mexico.

September 2017 - August 2018

Simon Fraser University
Bachelor of Arts

Majored in Communications, minored in Print & Digital Publishing. University exchange program participant (Beijing, China).

September 2008 - June 2014

Additional Skills

Musical Instruments

I have played the guitar for 15 years and created a guitar club to teach students the basics of guitar in Canada.

Coding

HTML/CSS/JavaScript are languages that I've taught and used for web development. I am also familiar with basic C and core programming concepts.

Graphic Design

Very comfortable using Adobe creative programs to create graphic work and have taught design courses in the past. I continue to design as a hobby and for personal projects.

Sports

I've organized and ran a ball hockey program for high school students in Canada and have taught PE in the middle years. Would love to coach ice hockey should the opportunity arise.

Photography

Photography was one of my biggest hobbies growing up. I've developed traditional film in dark rooms and have also used digital editing software extensively for compositions.
